

WKSF Questionnaire

The WKSF is working to make sure that is following all demands for a better sport where the vision of "Sport For All" is a priority and a reality. The opportunities, inclusion and equality are important to prepare our sport for a future where no one is put aside, respecting the grassroots of Kettlebell Sport, without losing the essence of lifting Kettlebells, respecting our history, the culture of lifting weights and being proud of the effort of all athletes that challenge themselves to lift and lift heavy.

At this time, the WKSF working with several partners, several already got the international recognition and is working with the highest international organizations on sport to get the recognition is very important to be solid giving the correct steps on this path to continue being the highest standard federation of Kettlebells on the world and an example of democracy, justice and fairness.

Only forward with the vision "From All & To All", the WKSF is bringing to you several options that would like to know your opinion. After reading all document and presentation, the WKSF would like to know your opinion, receiving from you your choice between Option1, Option2, Option3, Option4 (by order from the option you really see it is better until the last you do not see so good).

As you may check on the boards the Actual Panorama of disciplines at the WKSF brings a non equality on Elite Categories. Also, you may know that the WKSF is doing a huge effort to bring the competition among the athletes with the coefficients in the body weight categories without athletes to fill a full podium. Nowadays, we may show a great sport with competition where to become a champion must be with discipline, commitment and effort.

For 2025, the WKSF is prepared to bring some changes on our Disciplines and with that make it equality, less heavy competitions to organizers and WKSF, more competition among athletes and do not lose the spirit and culture of Kettlebell Sport. Nowadays, the WKSF has the Amateurs and Masters categories with all same disciplines with TALC, Biathlon, Only Snatch, 12' Snatch and all Marathons, but do not have Amateur Male OALC (as example) and at Elite do not have 10' OALC and 10' Only Snatch. This is the main focus of WKSF with this "Questionnaire" to present to each Representative several options.

For now, we let and remain the Juniors and Marathons as we have, not being this request an opinion about change any regulation on this categories and disciplines. Step by step with a clear vision about Elite, Amateur and Masters. On next boards and presentations, you can check the differences between and what each proposal brings. Please, read it carefully, share it between your Direction Board and Executive Committee and bring until 27th december your opinion by email to: info.wksf@gmail.com

Please, bring your opinion, not thinking in what is your national reality but the global reality and global panorama of Kettlebell Sport.

Attention: This is a Questionnaire to know the global opinion and bring a better decision for all Board Direction and Executive Committee final decision

WKSF Secretary General
Eduardo Fonseca
